PROFESSIONAL SUMMARY

Results-driven Information Technology graduate with First Class Honours and practical experience in IT support, networking, systems administration, user support, cybersecurity, and incident troubleshooting gained through work at Chinhoyi Provincial Hospital and Keisytch Printing Shop. Skilled in diagnosing hardware, software, network and user-access issues, providing technical support, maintaining IT infrastructure and training end users. Strong communication, teamwork and problem-solving abilities with a keen interest in IT Service Management (ITSM), Service Desk Operations and Cloud Technologies.

CORE COMPETENCIES

SERVICE DESK & IT SUPPORT

- ✓ Incident Management & Resolution
- ✓ Service Desk Operations
- ✓ IT Service Management (ITSM)
- ✓ User Training & Support
- ✓ IT Policy Implementation
- ✓ System Monitoring & Maintenance
- ✓ Endpoint Protection
- ✓ Disaster Recovery

TECHNICAL SKILLS

- ✓ LAN/WAN Setup & Configuration
- ✓ Firewall Configuration & Network Hardening
- ✓ Server Administration (Linux, cPanel)
- ✓ AWS Cloud Services
- ✓ Cybersecurity (CSRF/XSS Prevention, RBAC)
- ✓ Database Management (MySQL, PostgreSQL)
- ✓ Full-Stack Development (Python, Django, React)
- ✓ ITIL Framework Knowledge

KEY PROJECTS

Blood Bank Management System | Django, Python, SQLALCHEMY, HTML5/CSS3, JavaScript | 2023 | github.com/Extacia21;

- Designed full-stack web platform to manage 50+ blood donor records and real-time inventory for hospital use.
- Hardened system security with Django CSRF protection, parameterized queries and role-based access to prevent data breaches.
- Integrated Talking APIs for automated SMS alerts on low stock, cutting manual notification calls
- Designed normalized SQLALCHEMY schema and optimized queries, reducing report generation time.

Crisis Management Mobile App | React Native, Firebase, Node.js, REST APIs | 2025| github.com/Extacia21;

- Developed cross-platform emergency reporting app with GPS tracking, push notifications and offline-first sync.
- Implemented Firebase Auth + Firestore with security rules to protect sensitive incident data for 100+ test users.
- Built REST APIs and admin dashboard that cut emergency response logging time for coordinators.
- Engineered for low-connectivity: cached data locally and synchronized when network restored, critical for rural areas.

Accountants Portal - Business Website | Flask, Python, SQLALCHEMY, JavaScript, and SEO | 2026 | Live:
<https://accountantsportal.com>:

- Deployed responsive Flask site with custom Python plugins for secure client invoice portal and document uploads.
- Executed technical SEO: schema markup, image compression, lazy loading - achieved 92/100 Google Page Speed score.
- Optimized for best networks: minified assets + CDN setup delivered < 2s load time on 3G, reducing bounce rate.
- Secured SQLALCHEMY backend with prepared statements and configured email automation for contact forms.

PROFESSIONAL EXPERIENCE

ICT Systems & Networking Intern | Chinhoyi Provincial Hospital | Sep 2023 - Jul 2024 |

- Provided data analysis using DHIS systems that improved reporting accuracy.
- Involved in server upgrades and integration of new technologies, boosting speed and capabilities.
- Customized intranet with themes/plugins for internal commas, increasing staff engagement with notices.
- Participated in daily network monitoring, identifying faults early and cutting weekly downtime.
- Hardened hospital LAN: configured firewalls, enforced password policies, and participated in the training of staff on phishing/data security.
- Applied on-page SEO to public service pages, improving findability of hospital info for patients.

IT Support & Web Specialist | Keisytch Printing Shop, Chinhoyi | Oct 2022 – Jul 2023

- Designed and deployed responsive HTML5/CSS3/JS booking site, increasing walk-in customer conversions.
- Automated MySQL sales reporting with custom queries, saving manual Excel work for management.
- Managed secure LAN setup, printer networks, and endpoint protection across devices.
- Delivered end-user training on cybersecurity best practices, reducing malware incidents.

EDUCATION

Bachelor of Science Honors Degree in Information Technology | Oct 2021 – Jun 2025 |

Chinhoyi University of Technology | First Class:

Key Modules: Artificial Intelligence, Software Engineering, Project Management, Cyber Security, Networking, Disaster Recovery and Project Continuity, Distributed Systems, Computer Organization and Architecture, Web & Mobile App Development, Database Systems.

CERTIFICATIONS & TRAINING

- ✓ Introduction to IT & Cybersecurity – Cybrary | Feb 2024 |
- ✓ *Currently pursuing:* AWS Cloud Practitioner, Cisco CCNA fundamentals.
